

**#LOOK 2: GO MOODY!** Deep shades are entering our homes more and more. Whether sleek and sexy or rugged and masculine, the look can give your space a whole lot of character.

### MYSTERIOUS AND SEXY

The key to dark interiors is to layer on textures and colour for visual interest. In this flat, a smart palette of black, greys, navy and dark browns complement one another very well, with the timber dining table and black kitchen tiles bringing in the texture.

### NAVY ON BLACK

Navy and black make for an interesting pairing. For a sleek modern look, choose furnishings in clean simple lines and embellish with metallic or bright coloured accessories.

### FINDING THE RAINBOW

Even dark fabrics can have colour! If a full-black sofa is too much for you, consider designs with coloured details.
