Nature designs

The fabrics from Larsen's 2017 collection allude to the plants and minerals in the natural outdoor environment. Featuring details such as the lines of tree bark, the veins of a leaf, and the fossilised effect of a stone, Larsen fabrics offer textured effects and matt-shine contrasts in a elegant combination of nature-inspired colours.

Larsen is available at Tatum Company,
www.tatumcompany.com

Beautiful scents

Fill your home with a fragrance from Tom Dixon's Scent Elements collection. The Water scent is crafted to be a cool and sharp fragrance with a hint of maritime saltiness. Base notes include cedarwood, amber gris and musk. For a lighter floral fragrance, go for Air, a scent identified with white tea, Neroli oil, orange flower and white musk.

Tom Dixon is available at Xtra,

Ceramic art

We are absolutely in love with this range of handmade porcelain cups and mugs from Hotel & Home. Created by a Chinese artisan ceramicist who specialises in making glazes with variable colouring, these ceramic wares sport a delicate, minimal shape in a variety of colours and textures. Like works of art, each mug is glazed in graphite black on the inside with a signature swirl pattern at the bottom.
